COMPANY PROFILE

Greenland International Enterprise

Established in 2011, Greenland International Enterprises is a well-known trading and contracting company in Qatar with business divisions in Construction, Engineering, Procurement, Security & Defense, Healthcare, Information Technology, Management services, Facility Management, Oil & Gas.

Our vision is to be a leading provider of customer service in terms of sustained growth, stability, profitability and return of equity.

We believe in providing our clients world-class services distinguished by technical project management expertise. This strong customer-service coupled with high quality services has enabled us to grow into one of the most successful companies in Qatar and the region.

Since the beginning, we believed that taking care of our employees and listening to our customers is absolutely essential to our success. Through intensity and innovation, our employees are driven to provide world class service with the highest level of expertise.

Our comprehensive management and quality system enabled us to complete the most complex projects accurately and responsibly in rigorous compliance with applicable regulations.

01

Uncompromising commitment to Quality, Health, Safety and Environment

An open relationship with our employees based on mutual respect and success

02

Transparency, Accountability and Discipline in our business

03

Best in class Risk Awareness: Integrity in all we do

04

05

Financial Responsibility to our stakeholders

OUR VALUES ARE

Our Values

GIE's core values drive everything we do. Incorporating these core values in our daily work and making them an integral part of our culture, is key to our future success.

Our values solidify who we are and what we believe.

Our Mission

To safely deliver any project, any time, in any environment for the benefit of our customers, shareholders, employees and the communities we serve.

Our mission defines what we set out to do each day

OUR VISION

Our vision reminds each of us of what we should be striving for each day and where we ultimately want to be as a company.

To be the world's premier contractor delivering projects and services to a global marketplace. Our track record has proven that time and again when faced with the task at hand, regardless of the challenges, we deliver the work that is expected of us. To that end, GIE's slogan is 'Optimal Excellence'.

CORPORATE SERVICES

Engineering

PGIE's combination of global resources and proven engineering capabilities are what deliver worldclass facilities to our clients while meeting their demanding business needs. Our streamlined global engineering process - from concept to completion - produces consistent results in some of the most difficult and challenging locations on earth by using robust, data centric and technologically advanced engineering methods.

Our proven, time-tested design approach is based on a logical sequence of processes that focus on stakeholder input and reducing redesigns that impact cost and schedule. We provide a full range of services including EPC, grassroots facilities and revamps, offshore engineering, Feeds and conceptual studies, start-up and commissioning, and logistics planning and simulation.

Procurement

GIE works with clients around the world to deliver the right materials and services on time and at the best price, leading to overall project success.

Drawing on significant experience supporting clients in the Middle East, Europe, Asia Pacific, Africa, and the Americas, our innovative procurement services provide a customized solution to meet our clients' specific requirements.

CORPORATE SERVICES

Project & Program Management

We offer effective contract administration, cost and schedule control, work order management, quality control and design supervision to our global client base. We have worked with a number of organizations to provide the most inventive and refined solutions for key initiatives.

Our services included preconstruction, purchasing, field supervision, project scheduling and subcontractor management and security.

★ Clients & Investors Relationship

GIE is a leading global engineering, construction and services company supporting the healthcare, energy, petrochemicals, government services and civil infrastructure sectors.

The company is a leader in many of the growing end-markets it serves, particularly gas monetization, having designed and constructed, alone or with joint venture partners.

INTEGRITY, HONESTY, LOYALTY, ETHICS, PROFESSIONALISM

We are committed to grow, develop and be a key partner in the development of Qatar's infrastructure & industrial expansion through our dedication to understand & fulfill our customers' needs and requirements.

GIE is committed to exceed customer expectations by providing exceptional service, support and personnel. Our values are the foundation on which GIE builds relationships.

Event Management

The event industry is all about exceeding the expectations of all parties involved in the events, and design is one of the key ways to impress. Event managers need to be real outside-the-box thinkers who have a dynamic approach to problem-solving. Design is essential to an event's success, whether you have the creative spark that can give event guests a memorable experience, or the perfectionist's streak that crafts brand awareness right down to the colour of namebadges.

Branding

Your brand strategy is how, what, where, when and to whom you plan on communicating and delivering on your brand messages. Where you advertise is part of your brand strategy. Your distribution channels are also part of your brand strategy. And what you communicate visually and verbally is part of your brand strategy, too.

Media Relations

Media relations, or publicity, is a powerful tool for influencing and changing behavior. It provides critical, third-party endorsement for a product, service, issue or organization. As opposed to more direct forms of communications, such as advertising or direct marketing, communicating through a journalist provides valuable and sought-after credibility that other forms of communications cannot match.
